

# SCHOOL CONTEXT STATEMENT

Updated: 01/06/2015

**School number:** 1414

**School name:** Adelaide West Special Education Centre

## School Profile Text:

Adelaide West Special Education Centre caters for students from Reception-Year 13, specialising in the education of students with complex communication needs (CCN) and/or physical disabilities. Many students have complex medical conditions and are dependent on staff for their personal care needs.

Students who attend the main Taperoo school need significant adaptations to the curriculum and learning programs to accommodate physical disabilities, CCN, intellectual disability, global developmental delay and a range of other disabilities. Students who are cognitively able to access and participate in a mainstream setting but who have significant physical disabilities attend Link programs, located within a primary and two secondary schools in the metropolitan area. All students have a negotiated education plan (NEP) which contains individual education goals that are agreed in collaboration with families, reviewed regularly and reported on twice yearly.

The school curriculum is informed by the Australian Curriculum, allowing for a broad range of learning experiences but the needs of individual students are central to all curriculum planning and teachers adapt their classroom learning programs to meet those needs. A balanced literacy program provides all students with daily opportunities to develop the skills of using expressive and receptive language, reading and writing across all learning areas.

Adelaide West Special Education Centre is one of two Australian schools accredited to deliver the Movement Opportunities via Education (MOVE) program. This program involves school staff working in close partnership with families to support students to develop mobility programs, particularly focussing on the skills needed to sit, stand, walk and transition.

The values of Self-determination, Positive Self-esteem, Independence, Innovation and Respect for individual differences are reflected throughout the curriculum.

Adelaide West Special Education Centre provides a Statewide Outreach service to government and non-government schools supporting students with CCN and physical and associated disabilities. The Outreach service offers professional development, curriculum support, disability awareness, assistive technologies hardware and software information and support. The team offers advice and strategies for staff working with students with CCN and physical and associated disabilities. This service provides support, information and training for the successful inclusion of students attending mainstream schools.

School staff make a significant contribution to the field of education of students with CCN, physical and/or associated disabilities by delivering professional development

and training in Information Communication Technology (ICT), communication and physical development.

The Adelaide West Special Education Centre at Taperoo has been built as a Private Public Partnership.

# 1. General information

- Principal : Ms. Sylvia Flato
- Deputy Principal: Mrs Lorna Fenech
- Location Address: 12 Moldavia Walk, Taperoo, 5017.
- DECD Partnership: Le Fevre Peninsula
- Geographical location – Distance from Adelaide GPO – 22 km
- Telephone number: (08) 8248 9100
- Fax Number: (08) 8248 9150
- School website address: <http://www.adwest.sa.edu.au>
- School e-mail address: [dl.1414info@adwest.sa.edu.au](mailto:dl.1414info@adwest.sa.edu.au)
- A Child Parent Centre (CPC) is located adjacent at Ocean View College(OVC)
- Out of School Hours Care (OSHC) service: No
- February FTE student enrolment: 78.

<b>February FTE</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>2015</b>
Primary R-7 Special, N.A.P. Ungraded	39.2	34.6	31	40.0	52.0
Secondary (8-12) Special, NAP, Ungraded	41.8	42.2	36.4	28.4	24.8
<b>Total</b>	<b>81.0</b>	<b>76.8</b>	<b>67.4</b>	<b>68.4</b>	<b>76.8</b>

Aboriginal or Torrens Strait Islander (ATSI) student enrolment in 2015 = 6 students

Student enrolment trends: School enrolments are expected to remain steady or increase slightly.

- Staffing numbers (as at February census):

Total teacher allocation for 2015 is 10.21(F.T. E.)

Total ancillary hours / week: 651 hours per week

Principal (1.0)

Deputy Principal (1.0)

Co-ordinator – Teaching and Learning

The school has 2 full time and 31 part-time School Services Officers (SSOs)

- Public transport access:  
Train to Midlunga railway station or bus to Military Road, Stop 57

## **2. Students (and their welfare)**

### **General characteristics**

Adelaide West Special Education Centre is a school for students with physical and/or associated disabilities and/or CCN. Students travel from across the greater metropolitan area to attend the school.

The age range of students is from 5 –19 years.

All students have a documented NEP which is reviewed in formal meetings with parents annually in Term 1.

Classes range from between seven to ten students per class group. The classes are formed according to age and skill, physical and communication development and taking gender balance into account where possible. Classes have a teacher and two School Services Officers (SSOs). Health Support Officers (HSOs) provide health care support for students.

Adelaide West Special Education Centre has three Link Programs. These programs are located at Mitcham Primary School, Roma Mitchell Secondary College and Unley High School.

The school operates a Statewide Outreach Service.

### **Student well-being programs**

Underlying the school's practices is the development of positive self-esteem and student empowerment. The school fosters this through the provision of a supportive environment, effective communication between staff and families, working collaboratively with other agencies and advocating for students. The Department for Education and Child Development (DECD) Keeping Safe: Child Protection Curriculum is delivered across the whole school, modified in ways that suit the individual students needs and abilities.

Staff provide students with a high level duty of care. All staff working at Adelaide West Special Education Centre and its Link programs are expected to, where necessary, assist with personal care of students.

Staff employed at the school receive specific training in MOVE, Augmentative and Alternative Communication (AAC) safe transfer and positioning techniques, safe mealtime management procedures, medication management, Health Support Plan management and Basic Emergency Life Support.

### **Student support offered**

The school staff are supported by regular volunteers.

Classroom teachers are responsible for day-to-day communication with parents and carers. This occurs through use of diaries, e-mail and telephone.

The Co-ordinator (Teaching and Learning) together with class teachers supports students, parents/carers and families to explore post school options. These may include day options, supported or open employment and/or further education. This process occurs through the transition planning section of the NEP.

### **Student management**

The school adheres to the DECD *School Discipline Policy Statement* in relation to student behaviour management. Adelaide West Special Education staff are mindful at all times that behaviour is communication and needs to be addressed in ways that assist students to communicate their wants and needs appropriately. Individual students who exhibit inappropriate behaviours have specific behaviour management plans in place. These plans are agreed in collaboration between school staff, families and other agencies.

### **Special programs**

The school is committed to providing extensive physical activity to students through the Mobility Opportunities Via Education Program (MOVE). MOVE is a top down activity based curriculum designed to teach students basic functional motor skills needed for life in home and community environments. It combines natural body mechanics with an instructional process designed to help students acquire increased amounts of independence necessary to sit, stand and walk in a safe and supportive environment. MOVE is designed to help families, educators and therapists work together towards goals specific to the child's needs and in return, moving people with disabilities from a restrictive environment to a more inclusive lifestyle. MOVE is designed to help families, educators and therapists work together toward goals, specific to the child's needs and in turn, moving people with disabilities from a restrictive environment to a more inclusive lifestyle.

Augmentative and Alternative Communication (AAC) is used to assist students in developing their communication skills – most students use Pragmatic Organisation Dynamic Display communication books (PODDs) or AAC apps on iPads. These are used in combination with other modes of communication including aided language displays, keyword signing, graphic symbols and verbalisation to support independent communication across the school day.

Adelaide West Special Education Centre participated in the National Partnership: More Support for Students with Disabilities Initiative from 2012-2014. An outcome of the Complex Communication Needs using Emerging Technologies (CCNET) Project was for Adelaide West Special Education Centre to become a specialist centre supporting students with CCN. When the project concluded at the end of 2014 the specialist support provided for students with CCN was incorporated into the existing Adelaide West Statewide Outreach Service. The Outreach Service also provides support and assistance with curriculum accommodations, transition, disability awareness and professional development.

## **3. Key School Policies**

The site improvement plan for 2014-2017 has 3 main priorities. These are:

1. By 2017 the Adelaide West Curriculum delivery will be defined by the Australian Curriculum and SACE

2. Adelaide West is recognised as a national/international centre of expertise in curriculum, communication and mobility opportunities via education
3. Form strategic and mutually beneficial partnerships

Adelaide West regularly hosts local, interstate and overseas visitors who are seeking specialist support and support with current practice in teaching strategies for students with CCN and physical and associated disabilities.

Adelaide West staff continually research, maintain and improve our knowledge, skills and understandings of the best strategies to use to support students with CCN and a range of disabilities by attending professional development, conferences, workshops and online training.

The core business of the school is to:

- Teach students within a safe, supportive and responsive learning environment,
- Cater for the diverse range of student needs and learning styles,
- Develop students' positive self-esteem and empowerment, which are values underlying all of the school's practices,
- Provide students with a broad and challenging range of learning experiences within the R-12 curriculum,
- Provide students with skills and understandings which will enable them to participate in a meaningful way within the community.

To meet the individual needs and learning styles of each student the school offers:

- Adapted programs and learning activities based on the Australian Curriculum,
- Modified SACE and SACE programs,
- Transition education programs to prepare students for post-school options,
- Individual and small group programs,
- Professional development for staff to support students to use communication systems that meet their individual needs and abilities. This ranges from teaching students to use a symbol system, AAC devices and assistive technologies,
- A safe learning environment by working within strict WHS policies and guidelines,
- Well equipped sensory rooms and individualised sensory learning programs,
- An Independent Living Unit where students can develop independence and practice skills of daily living,
- Access to current and emerging technology,
- An overhead tracking system for ease of student manual handling,
- Additional support and opportunities for students in the Link Programs to achieve in an integrated setting.

## **Recent key outcomes:**

### **CCNET Project**

SCHOOL CONTEXT STATEMENT 2015.docx

Page 6

The Complex Communication Needs using Emerging Technologies (CCNET) Project finished at the end of 2014 and all project benchmarks were achieved. Twenty six DECD school sites were supported by the CCNET team. 2 students completed their SACE and twenty two students continue to be supported through the Adelaide West Statewide Outreach Service in 2015.

Project students were provided with technology consisting of an iPod, iPad mini or iPad with Proloquo2Go or Proloquo4text which are AAC applications. A range of individualised professional development and on-going support was provided by the project team for students, families, educators and DECD speech pathologists. CCNET team support has helped students to develop functional communication skills which has resulted in improved communication and social inclusion.

Reports received from family and staff involved in the CCNET Project are that the iPad and CCNET team support has helped their children/students to be more verbal and initiate conversations more often. Other benefits have been increased confidence, improved eye contact, greeting others and improved literacy outcomes. Students are more settled and far less frustrated at school. They are highly motivated to use their iPad to communicate at school, at home and in the community with unfamiliar communication partners. Students are starting to see the iPad as a useful tool for repairing communication breakdowns.

### **Literacy program**

The introduction of a whole school balanced literacy program began in 2013 supported by Jane Farrall. This has resulted in significant improvements in student communication skills, improved focus on literacy in all classrooms, increase engagement of students and demonstrable gains in literacy learning for the students at Adelaide West special Education Centre.

### **Link Programs**

The Link Programs provide an environment where students have access to a quality inclusive education that builds positive attitudes towards life long learning and nurtures independence, self-esteem, respect, friendship and success. Students within the Link Programs are integrated into mainstream classes with varying levels of support from staff.

#### **Link Program at Mitcham Primary School**

The Link Program has 10 full time students. Student year levels range from Reception to Year 6. The major focus areas for 2015 are:

- Communication - based on engagement and quality relationships with students, parents and staff
- Student Engagement - actively participating in the learning process including outdoor education, school excursions and class camps
- Learner Wellbeing - with a focus on resilient, optimistic and confident behaviour
- ICT - accessibility and extending skills allowing students to take responsibility for their own learning
- Friendship - Students are encouraged to identify what it takes and the skills needed to establish and maintain meaningful friendships within a mainstream school setting.

#### **Link Program at Unley High School**

The major focus is on empowering students to become confident, independent learners and responsible citizens. Through the ongoing review of NEPs, transition planning and Personal Learning Plans, all students are engaged in determining their future pathways, encouraged to reach their full potential with SACE, and prepared for their transition to further education and/or the work place.

An emphasis is placed on student wellbeing through programs which promote health, safety and personal development such as the DECD Swimming Program for Students with Disabilities. This also includes Link specific programs provided by Novita, Shine and Disability SA as well as school based programs such as pastoral care events, personal relationship days, cultural events and self-esteem programs.

Unley High School is a technology rich school and continual emphasis is placed on integrating new and emerging technologies and initiatives to enhance learning. Students have access to the internet, online teacher notes and worksheets and are encouraged to use email to contact their teachers at any time. Link students are also provided with opportunities to become confident with specialised software and applications which enhance their experience with and access to the mainstream curriculum, as well including digital voice recorders, iPads, Livescribe Pens and other emerging technologies. Students requiring augmentative and alternative communication devices are supported to develop independent communication for social and academic purposes.

Staff training and professional development is responsive to staff and student needs. Staff are required to undertake training in child protection, DECD initiatives and new technologies. The Women's and Children's Health Network provide information and training on health related issues, local organisations provide support for student wellbeing and leisure programs, disability services such as the Muscular Dystrophy Association and Novita provide information about specific disabilities and Boccia Australia and Wheelchair Sports provide information and training in sports programs. Individual student requirements determine the organisations involved with planning for transition from school with NDCOs from TAFE and UniSA providing vital information on Tertiary programs and student access and Disability Employment services providing work ready and job programs.

### **Link Program at Roma Mitchell Secondary College**

The Link Program is situated within the co-educational campus of Roma Mitchell Secondary College. Students are encouraged and supported to succeed within the curriculum to their fullest potential. Assistive technologies are incorporated where possible to assist learning and assessment.

A major focus of the Link Program is to empower students to be capable, confident and successful adults in the community. A variety of skills are necessary for students' post-school success, regardless of their destination plans. In addition to the regular curriculum, the Link Program aims to engage students in activities that assist them to develop personal, work and life skills to assist this transition.

Students continue to participate in personal goal setting opportunities, and round table forums building skills in personal awareness, pathway mapping, organisational skills and public speaking.

Students in the Link Program are actively encouraged and supported to seek experiences and opportunities with community organisations and resources. Options that students have utilised previously are; WEA, Marden Senior College, Muscular Dystrophy Assoc., Purple-Orange, Novita, Barkuma, Better Pathways program, and a variety of work experience providers.

### **Statewide Outreach Service**

The Adelaide West Statewide Outreach Service supports teachers, SSOs and Integrated Support Services staff to enable learners with physical, intellectual or multiple disabilities or complex communication needs to access, participate and engage in the school curriculum.

Government and non-government schools and preschools are eligible for support from the Statewide Outreach Service.

The Outreach team can provide professional development sessions or support with assessing the needs of individual students and implementing strategies to support learning and communication.

The Statewide Outreach Service is staffed by 2 teachers, a SSO and a speech pathologist with extensive knowledge and experience in teaching/supporting learners with disabilities and/or CCN.

The Outreach team can provide support in the following areas:

#### Curriculum Support

- Support with planning and implementing curriculum differentiation
- Formulating achievable learning goals
- Incorporating goals into the class program
- Providing support in the use of specialised equipment and assistive technologies
- Modifying physical education programs
- MOVE

#### Assistance with Transition

- Advice about transition of students between all levels of schooling
- Support with identifying suitable sites
- Staff induction
- Access considerations

#### Disability Awareness

- Workshop-style sessions for staff or student groups
- Raise awareness and understanding of challenges faced by students with disabilities
- Tailored to suit different age groups and disabilities

CCN:

- Consultative support with assessing the needs of students with CCN
- Advice with goal setting and implementing strategies to support communication and participation at school
- Advice regarding communication apps and speech generating devices
- Support with trial, set up and implementation of Augmentative and Alternative Communication (AAC) systems including low tech systems, communication apps and high tech systems

Professional Development:

- Sessions on topics related to the above areas
- Sessions on inclusive practices to enable learners to become fully participating members of the school/preschool community
- Sessions on the role of support staff
- Sessions on specific disabilities and their impact on learning

Referral Process

Referrals can be made by school principals, preschool directors, other school representatives or Department for Education and Child Development Integrated Support Services staff.

Please direct any enquiries to [adwest.outreach611@schools.sa.edu.au](mailto:adwest.outreach611@schools.sa.edu.au).

See below for links to Statewide Outreach Service brochure, support request form and other forms.

## 4. Curriculum

### Subject offerings:

The school provides learning programs using the Australian Curriculum, for students in years R-9 and SACE for senior students. Teachers need to adapt educational resources and programs to suit students' needs; a process that requires creativity and innovation. Staff use their knowledge, skills and awareness of educational practises, information technologies and resources available to support the education of students with disabilities in adapting the teaching and learning activities delivered to students at Adelaide West.

### Special needs:

All students at the school have special needs. These are documented through NEPs and Health Support Plans. These documents are reviewed and updated annually in consultation with parents/carers.

### Special curriculum features:

Adelaide West Special Education Centre is building on existing strengths to become a specialist school for students with CCN. The school has a strong focus on providing opportunities for communication throughout the school day. In consultation and

collaboration with families and speech pathologists, all students are provided with a personalised communication system using AAC which may include:

- graphic symbols, as in PODD communication books,
- iPads using speech generation apps like Proloquo2Go,
- signing, switches and aided language displays.

Students with complex communication needs are supported by:

- providing emerging assistive learning and communication technologies to support the learning of students with complex communication needs
- training and support for teachers, SSOs, parents and school communities

Senior students undertake Modified SACE program and transition programs to post-school options.

Students participate in swimming, physical development and MOVE programs.

### **Teaching methodology:**

Students range widely in their abilities and learning styles. Teaching methodologies vary according to students' needs. Explicit teaching occurs on a 1:1 basis and in small groups. Collaborative learning methodologies are used where possible.

Each class has a minimum of sixty hours SSO support to assist students to access and participate in learning programs. Some classes and programs have additional support provided and, when their health needs require it, a small number of students are accompanied by Registered Nurses.

Information Technology is used extensively across the curriculum by all classes. Students access and use a variety of technologies ranging from simple equipment to more sophisticated communication devices.

Classrooms are equipped with interactive white boards and laptop computers. All computers are networked. Technical ICT support and training are available to teachers and staff to support student learning.

### **Student assessment procedures and reporting:**

Procedures used for student assessment and reporting include specific literacy testing, work samples, student portfolios, observation, digital photos and videos and test results. Continuous monitoring and evaluation occurs to determine if students are meeting their negotiated individual learning goals. Informal reporting occurs regularly through student diaries. Formal reporting processes occur throughout the year.

During Term 1, parents have the opportunity to meet with teachers and discuss their child's NEP. A comprehensive student portfolio is sent to parents in Term 2 focussing on the work that students are doing towards their individual goals. A parent teacher meeting may be held in Term 3 to discuss students' progress. Comprehensive written reports are provided to parents at the conclusion of Term 4 together with a collection of photos of their child at school during the year.

### **Joint programmes:**

Adelaide West has established links with students and staff of OVC. Staff regularly participate in Le Fevre Peninsula Partnership professional learning days which are

jointly hosted by OVC and Adelaide West. Students from both schools participate in combined activities around special events such as: in Reconciliation Week, Book Week, Science Week and Sports Day. Students from the two schools have opportunities to play and interact during lunch times. Adelaide West Special Education Centre students can attend OVC classes to support their learning if this complements their individualised program.

## 5. Sporting Activities

All students participate in regular modified physical development or MOVE sessions and a weekly swimming session. Students participate in the school's annual sports day.

## 6. Other Co-Curricular Activities

Students participate in whole school special celebrations that are closely linked to the curriculum. These include Reconciliation Week, Science Week and Book Week, where students attend a variety of activities or performances and are involved in a wide range of experiences.

## 7. Staff (and their welfare)

### Staff profile

There are 11.5 (FTE) teachers, 2 full time SSO and 31 part time SSO staff employed across the four school sites. Staff work across these sites as necessary.

### Leadership structure

Leadership structure is comprised of the Principal, Deputy Principal and the Co-ordinator (Teaching and Learning). A number of teachers undertake additional responsibilities as part of their Step 9 recognition.

### Staff support systems

The leadership team of Principal and Deputy Principal, together with the Co-ordinator, provide support in the areas of curriculum planning, team building and provision of Professional Learning opportunities through formal and informal meetings. Performance Development, planning meetings and Step 9 evaluation and review are the responsibility of the leadership team. The Principal and Deputy Principal provide support to Link Program staff and class teams.

Sound working relationships exist between the WHS representatives, PAC, AEU Sub-Branch secretary and the administration of the school.

The school has 4 staff trained in Merit Selection and Equal Opportunity.

The school complies with the *DECD Guide to Resolving Grievances and Complaints Resolution Policy*.

Staff are provided with extensive opportunities for school based professional learning in balanced literacy, safe transfer and positioning of students, mealtime management and procedures, disability awareness, information communication technology, augmentative and alternative communication (AAC), Basic Emergency Life Support (BELS) and other areas identified by the staff and the leadership team.

## **Performance Management**

Staff are provided with specific meetings and main discussion points to be addressed in relation to Performance Development in accordance with the DECD performance development proformas. Staff meet with their respective Line Manager to discuss professional aspects of their work which include current practices, student goals and progress, personal career pathways, study opportunities and professional learning options. Staff are provided with verbal and written feedback as part of this process. Impromptu informal feedback is ongoing.

## **Access to special staff**

Specialist support services are available through DECD e.g. Kilparrin Teaching and Assessment Statewide Support Services teachers, the Special Education Resource Unit and Support Services including Psychologists, Social Workers, Counsellors, Speech Pathology and Behaviour Coaching. Other support services may include non DECD service providers such as Novita Children's Services, Autism SA, Disability Services, Adult Therapy Services and Child, Youth and Women's Health Service.

## **Other**

Staff must have a commitment to and empathy for the students and their families. Physical, emotional and intellectual demands on staff are high. Staff work in a team situation with teachers providing the leadership for the classroom team consisting of SSOs and Health Support Officers (HSOs) and Registered Nurses. They work in collaboration with therapists employed by Novita Children's Services and staff from other disability agencies.

Staff are expected to familiarise themselves with the nature of their students' disabilities and the impact on learning. There is a need to support students using AAC devices and assistive technologies. Developing and maintaining the skills and understandings in this area requires a commitment to out of school hours professional learning. School staff often provide professional development to their colleagues. The need to constantly modify educational resources and programs to suit students' needs requires creativity and innovation. Staff must commit to constantly increasing their knowledge, skills and awareness of educational practises, information technologies and resources available to support the education of students with disabilities.

## **8. Incentives, support and award conditions for staff**

### **Complexity placement points**

1.5

### **Isolation placement points**

1.0

### **Travelling time**

Travel allowances are provided for Statewide Outreach Service staff.

### **Designated schools benefits**

Teachers receive a Special Education allowance.

Teachers and SSOs who work with students over 50% of their time are eligible for an annual clothing allowance.

### **Medical expenses**

Staff are entitled to free Hepatitis A and B and subsidised Influenza vaccinations.

## **9. School Facilities**

### **Buildings and grounds**

The Adelaide West Special Education Centre was opened in November 2010. The school comprises eight classroom teaching areas; purpose built toilet and hygiene areas, First aid room, 2 sensory rooms, an Information Resource Centre, Gym, Independent Living Centre and Administration building.

### **Heating and cooling**

Reverse cycle Air conditioning exists in all areas of the school.

### **Specialist facilities and equipment**

The school building has been designed for wheelchair users with wide corridors, adapted hygiene/toilet facilities and a bus bay to accommodate buses and taxis with hoists. Classrooms have interactive white boards, access to internet and computer technology. The classrooms, toilet/hygiene and sensory room areas are equipped with a ceiling lift system enabling students to be transferred in a comfortable and dignified way. This easy-to-operate system minimises manual handling.

### **Student facilities**

The school has a bright and extensive playground area designed for wheelchair users, with direct access from classrooms. The school has a specifically designed shaded playground area with accessible sandpit, activity & play stations and wheelchair swing.

There are two sensory rooms with specific multi-modal sensory equipment designed to cater for students with severe and multiple disabilities.

### **Staff facilities**

Staff have a separate staff room, meeting room and off road parking.

Staff have access to internet, e-mail and other ICT facilities.

### **Access for students and staff with disabilities**

All facilities are fully accessible to wheelchair users.

### **Access to bus transport**

Most students travel to and from school in buses and taxis adapted for wheelchair access. The school has access to four DECD buses (adapted for wheelchair access) for school excursions.

## **10. School Operations**

### **Decision making structures**

The school uses a participatory decision making model ensuring students, staff and parents have the opportunity to be involved at all stages.

The school has an active and participatory Governing Council.

Regular leadership, staff, SSO and class team group meetings are held to inform decision making within the school.

A number of committees and interest groups are involved in decision making within the school. These include: Personal Advisory Committee, WHS, Finance and Curriculum focus committees.

### **Regular publications**

The school's website has relevant information, a calendar of school events and activities and school Newsletters. The school has a daily notice book, weekly staff bulletin and a school newsletter (also distributed to students' families).

### **Other communication**

Regular communication between staff and families occurs by phone calls, emails and face to face meetings. Email and phone calls are the main form of regular communication with staff at the Link Programs. Further communication of the expectations of staff at Adelaide West Special Education Centre occurs through Professional Learning, SSO and staff meetings, notes and e-mails.

### **School financial position**

The school is in a sound financial situation. Each classroom is allocated a classroom budget. The budget is monitored by the Finance Committee which meets regularly for this purpose.

## **11. Local Community**

### **Adelaide West Special Education Centre - Taperoo**

#### **General characteristics**

The community is predominantly English speaking living in privately owned or rented housing. The North Haven community was built in the late 1970's. Many students attending nearby schools come from the older suburbs of Osborne and Taperoo where there is a large community of ex Housing Trust houses. The area is undergoing some rebuilding and growth of small housing developments.

#### **Parent and community involvement**

The students travel from the greater metropolitan area to the school. The school has an active Governing Council and parental support is given on special days/occasions and many other activities.

#### **Other local care and educational facilities**

Ocean View College and Ocean View College Child Parent Centre are located adjacent to Adelaide West Special Education Centre.

#### **Commercial/industrial and shopping facilities**

There are a variety of industries in the area – mainly along the Port River – Australian Submarine Corporation, Penrice Soda Products, Outer Harbour Container Depot and the Australian National Power Station.

Local facilities include the North Haven Marina, Cruising Yacht Club, Royal SA Yacht Squadron and North Haven Golf Club. The North Haven shopping centre and restaurants are nearby.

Semaphore beach and the Semaphore Road shopping precinct is located 6 km from the school.

Port Adelaide town and shopping centre is located 9.5 km from the school site.

**Local Government body**

City of Port Adelaide Enfield – Local Member of Parliament is the Honourable, Ms. Susan Close.
